

## SG 751 SAPR SWISS ARMS Precision Rifle

SAPR stands for SWISS ARMS Precision Rifle, and highly precise support is exactly what this weapon brings to Armed and Special Forces. Its rugged design is based on the legendary SIG 55X assault rifle family.

The SG 751 SAPR uses 7.62 mm x 51 (.308) caliber rounds to provide accurate and powerful support, especially for short and middle distances.

### Barrel Options:

Technical Data SIG 751 SAPR			
Caliber	Trigger pull weight	Weight of empty magazine	Function principle
7.62 mm x 51 NATO (.308)	35 N (3.5 kg)	140 g	Gas operated
No. of grooves	Cycle rate	Mag. weight with 20 rounds	Bolt pattern
6	approx. 650 rounds/min	480 g	Rotating bolt

Shown with optional accessories. • Products in this catalog are not available in this version on the U.S. market.

## SAN 511 Precision Rifle

The SAN 511, Caliber 12.7x99mm (50. Bmg), has been especially designed as a high precision weapon for armies and law enforcement units. Its rugged design and modularity make it a perfect weapon for asymmetric engagements. Accurate, handy, powerful and operationally versatile,

this weapon suits operations for short, medium and long range assignments up to 2,000 m. It covers any military, special forces or LEO operation needs from EOD clearing to counter sniping missions.

### Standard Features:

- High precision on long distances
  - High-robust construction
  - Salt-water resistant
- Different models and versions on request.

### Options:

- 1 Cheek rest for buttstock: black, green or desert
- 2 Picatinny mount for rifle scopes
- 3 Suppressor (not available for 17,5\"/>
- 4 Pistol grip + Plastic parts: black, green or desert
- 5 5-round magazine or single shot adapter
- 6 Milldot Dial

## The Modular System

The whole rifle family shown in this catalog is based on a modular system. By changing and adding components each rifle model can be converted into one of its sister models or can be equipped with new features. With a moderate investment you can cover a wide field of applications and react flexibly to new challenges.

### Firing Options:

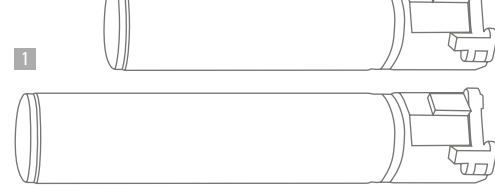

Single auto (SA)

Full auto (FA)

### Suppressor:

Several models and calibres on request.

### Colour Options:

Black

Green

Desert

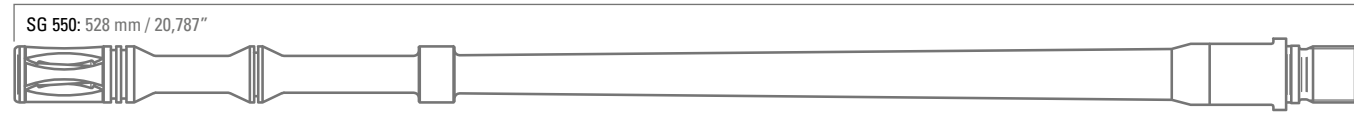

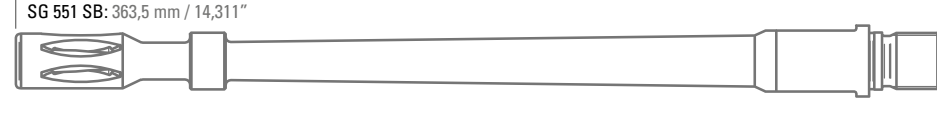

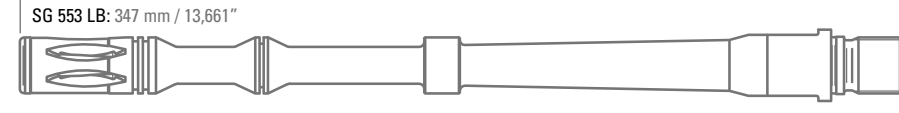

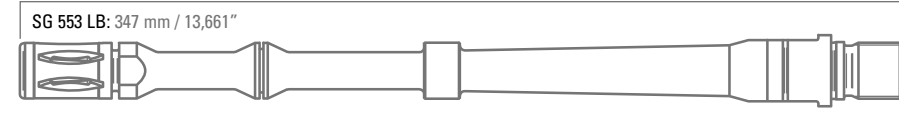

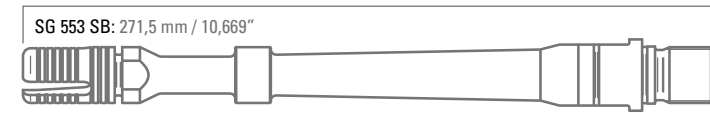

### Barrel Options:

Rotex muzzlebrake

Standard muzzlebrake

SB = Short barrel • LB = Long barrel • Shown with optional accessories. • Products in this catalog are not available in this version on the U.S. market.

## The Components

### Standard Features:

- Compact, flexible design
- 2 position adjustable gas valve
- Rotating bolt
- Cold hammer forged barrel
- Safety lever and magazine catch are ambidextrous operable
- Charging handle is limited ambidextrous operable
- Three firing modes – single shot, 3 round burst (full auto optional)
- Extremely low sight line (low silhouette)
- Foldable trigger guard (left or right) for shooting with gloves
- Folding butt

### SG 551 LB

### SG 551 SB

### SG 553 LB

### SG 553 SB

## SG 550 Standard Rifle

Swiss Arms assault rifles rank among the toughest and most versatile tactical arms in the world. The standard barer is the SG 550, proven when cover and speed count. The SG 550 utilizes a proven indirect gas operating system with rotating bolt that has proven its dependability and safety in the field time after time.

### Standard Features:

- 2 position adjustable gas valve
- Rotating bolt
- Cold hammer forged barrel
- Ambidextrous handling
- Three firing modes – single shot, 3 round burst, full auto
- Diopter rear site, flip up front sight
- Foldable trigger guard (left or right) for shooting with gloves
- Folding butt
- Translucent polymer magazines, 30% lighter than metal

### Technical Data

Caliber	Overall length	Overall height	Length with butt stowed	Barrel length	Rifling lead
5.56 mm (.223 Rem.)	998 mm	210 mm	772 mm	528 mm	178 mm, 254 mm
No. of grooves	Sight base	Weapon weight	Magazine capacity	Mag. weight with 20, 30 rounds	Combat weight with 120 rounds
6	540 mm	4.1 kg	5, 10, 20, 30	340, 480 g	6.0 kg
Weight of empty mag. 20, 30	Trigger pull weight	Muzzle energy	Cycle rate	Function principle	Bolt pattern
95, 110 g	35 N (3.5 kg)	1,700 J	approx. 700 rounds/min	Gas operated	Rotating bolt

## SG 551 SB

This gas-operated assault rifle was designed specifically for SWAT team tactical missions. Its minimal size and weight make it perfect for any military engagement, especially demanding law enforcement and maritime operations. Options include an adjustable drum diopter sight or Picatinny rail receiver with adjustable auxiliary iron sights.

### Standard Features:

- Comes in standard and extended length barrels
- 2 position adjustable gas valve
- Rotating bolt
- Cold hammer forged barrel
- Ambidextrous handling
- Three firing modes – single shot, 3 round burst, full auto
- Diopter rear site, flip up front sight
- Foldable trigger guard (left or right) for shooting with gloves
- Folding butt
- Translucent polymer magazines, 30% lighter than metal

### Technical Data

Caliber	Overall length	Overall height	Length with butt stowed	Barrel length	Rifling lead

No. of grooves	Sight base	Weapon weight	Magazine capacity	Mag. weight with 20, 30 rounds	Combat weight with 120 rounds
6	466 mm	3.4 kg	5, 10, 20, 30	340, 480 g	5.4 kg
Weight of empty mag. 20, 30	Trigger pull weight	Muzzle energy	Cycle rate	Function principle	Bolt pattern
95, 110 g	35 N (3.5 kg)	1,460 J	approx. 700 rounds/min	Gas operated	Rotating bolt

## SG 553 SB

Accurate, powerful and operationally versatile, this compact assault rifle is perfect for light close entry and close quarters combat. The SG 553 uses 5.56 mm x 45 NATO (.223 Rem.) caliber rounds for short and medium range assignments up to 300 meters. This rifle's terminal ballistic performance is far superior to the submachine gun.

### Standard Features:

- Compact, flexible design
- 2 position adjustable gas valve
- Rotating bolt
- Cold hammer forged barrel
- Ambidextrous handling
- Three firing modes – single shot, 3 round burst, full auto
- Diopter rear site, flip up front sight
- Foldable trigger guard (left or right) for shooting with gloves
- Folding butt
- Translucent polymer magazines, 30% lighter than metal

### Technical Data
